CPH Group: Perlen Papier CEO Frank R. Ruepp to leave CPH

Frank R. Ruepp, CEO of Perlen Papier AG, is to step down from his post after seven years to take on a new professional challenge. He will leave the CPH Group.

Frank R. Ruepp has been serving as CEO of Perlen-based Perlen Papier AG, which is a fully-owned subsidiary of CPH Chemie + Papier Holding AG, since 2004. The paper manufacturer has substantially increased production volumes under his tenure, particularly through the investment in its new PM 7 paper machine, which entered service last autumn. The company's Perlen plant expects to record total production of almost 490 000 tonnes for 2011.

Following the successful entry into service of the new PM 7 machine, Frank R. Ruepp has decided to take on a new professional challenge outside the CPH Group. He will leave the Group this autumn

CPH offers him its sincere thanks for his many years of work, service and commitment for Perlen Papier AG and its parent company, and wishes him every future satisfaction and success.

Details of Frank R. Ruepp's successor as CEO of Perlen Papier AG will follow in due course.

Perlen, 14 June 2011
